I have a meeting with my supervisor on the 10th. I don't want to miss that or Rosemont, so is there a possibility of picking another day?

Hi Team.

Looks like September 9th isn't going to work for all so I'd like to proposed September 10th (plan all day) for the next large group meeting (combined hydro and bio). I'll send out the details (i.e. agenda and location) as the date nears. Sorry for the confusion.... And I hope this date works better for more people. Please let me know if you have a conflict with 9/10.

Thanks!!

Subject: Rosemont Project federal hydro/bio working group

Hi Team.

Things are moving along with the FBIG (i.e. the bio-subgroup) this month. We are hoping to have some information to share along with some updated info on the hydro side too. Therefore, I'd like to propose another meeting with this Federal hydro/bio group to bring the two sub-group discussions together and to discuss our path forward.

Please reserve September 9th (all day) for this meeting. I will send out the meeting details as the date nears – but I thought it best to get it on everyone's calendar now. Please let me know if you are unable to make this date.

Thanks!

Hi Team

Attached are the notes (below the agenda) from last week's meeting in addition to the task with follow-up items. Please note, the last page indicates that we are asking for all the additional information to be posted to the client server by August 8th (many of you are already aware of this date).

If you have any questions or concerns, please contact me.

Thanks!!

Subject: RE: Save the date, July 23rd, Rosemont Copper Project hydrology working group - Federal agency subgroup meeting

Hi Team.

Attached you will find a number of documents for the upcoming meeting on **June 23rd** for the federal agency working group on the Rosemont Copper project. The agenda includes the time, location, and dial in instructions. The purpose for the meeting is described in the agenda as well as below in the original email from the FS to this group.

I am also attaching:

- (1) a summary of all the data and information reports that were turned in to the FS since the last meeting in June. Hopefully you have already had a chance to review this information as it was posted to the client share site at <https://client.swca.com/RosemontGWMD>.
- (2) Nine (9) briefing papers on different approaches that were presented at the last meeting. These will be discussed briefly by Chris Garrett at the start of the meeting on 7/23.

Please forward this message on only to others in your agency whom I may have missed that will be participating in this meeting.

If you have any questions, please feel free to contact me (info below).

Thanks!!

Subject: Save the date, July 23rd, Rosemont Copper Project hydrology working group - Federal agency subgroup meeting

As part of the follow-up to the hydrology working group meeting on June 10-11, we would like to meet with the sub-set of Federal agency participants on July 23rd, all day. The purpose of the meeting will be to review and discuss selected possible analysis approaches that could be used in the Section 7 process to describe future impacts to aquatic and riparian systems. The specific goal of the meeting will be to discuss the information presented in a series of draft briefing papers prepared by the Forest Service, in order to identify which approaches would decrease uncertainty or increase accuracy compared to existing analysis. Briefing papers will be distributed prior to the meeting to allow adequate time for review. The meeting location is yet to be determined, but we will make sure there is video conferencing capabilities for those unable to attend in person. Please let me know if you are able (or not) to attend. Thanks!

Subject: Re: Rosemont foia
Date: Friday, April 18, 2014 8:50:03 AM

Mindy,

The BLM does not have any concern with sharing what information you have. We have the data posted on public websites as well. Let me know if you need our assistance, TR

On Wed, Apr 16, 2014 at 2:31 PM, Vogel, Mindy S -FS <msvogel@fs.fed.us> wrote:

Good Afternoon,

I wanted to let you know that Rosemont has submitted the following request, and that the FS is treating it as a FOIA (although some information may be entitled to them as part of the Section 7 consultation reg's)....

- Rosemont is requesting copies of any meeting notes from the consultation with Fish and Wildlife Service meetings, cooperating agency meetings, CEQ discussions, or other reports, analysis or correspondence in the Forest Service possession where BLM was an attendee or a participant so we may better evaluate the situation.
- At our (FS & Rosemont) meeting on April 15, 2014 you mentioned raw data and reports that were available from the Bureau of Land Management related to Empire Gulch and Cienega Creek. At this time, Rosemont has not seen the data or reports and is requesting copies of all reports, written analysis, as well as underlying data (either used in the analysis or not) regarding Empire Gulch and Cienega Creek that may in the possession of the Forest Service regardless of who produced the report.
- We also understand that EPA has provided reports and analysis related to Sonoita Creek Ranch, Pantano Dam, Cienega Creek and/or Empire Gulch. Rosemont requests copies of all such documents prepared and submitted by EPA that are in the possession of the Forest Service.

Please let me know if you have any concerns with the potential release of any information we have as it relates to the above requests.

Thank you.
